

About Us

Myers Emergency Power Systems has been in the business of manufacturing backup emergency power products for over 60 years. We provide emergency power solutions for the lighting, traffic, and broadband industries.

Education Facilities

- 1 Day Care Centers
- 2 K-12 Schools
- 3 Colleges and Universities
- 4 Safe Rooms

Inverters for Emergency Lighting

It is required that all educational centers have evacuation plans in case an emergency situation occurs. Our inverters help illuminate paths of egress to help faculty and students safely exit buildings. Myers EPS inverters include self-testing and diagnostics to ensure that they are always up and running, especially during critical moments.
